If you are looking for something spot on for your wall at home, it'll be here!

Welcome to Contemporary and Country's (C&C) first exhibition of contemporary art by established artists, that kicks off a series of seasonal selections to run throughout 2022. These installations will include paintings, drawings, prints, sculpture, photography and selected handmade objects by artists and makers based in or close to Norwich and its sphere of influence across Norfolk, Suffolk and Cambridgeshire. Their fresh, innovative work reflects the unique qualities of the people and landscape of East Anglia. While locally sourced, the assembled artworks have been selected by C&C to complement the cleaner lines of the contemporary British and European furniture, lighting, and soft furnishings with internationally recognisable brand names for sale at THE GRANARY – on the second floor of this flagship store.

The first installation for – SPRING 2022 – will run from April 1, featuring recent work by influential artists, based here. On select days, throughout the season C&C will

display one-off, handmade glass, ceramic and wooden objects to complement the art on the walls, making it easier for you to make to most of your home.

In August 2021, Arts Council England published research called *A High Street Renaissance: How arts and culture bring people and pride back to our high streets*. In response to this, C&C have joined forces with Jarrold to bring retail and cultural expression together through art and to celebrate civic pride in the City of Norwich.

Emerging from the COVID pandemic, it is important for us all to re-establish cultural activity in the city, adding to a more enjoyable experience in Norwich's creative quarter. THE GRANARY GALLERY is well placed on Bedford Street as a new art space. It is close to East Gallery (NUA's dedicated gallery), Fairhurst Gallery, Moosey Art and Mandells Gallery in Elm Hill, all within ten minutes walk, strengthening the City's art trail.

CONTEMPORARY AND COUNTRY

Contemporary and Country (C&C) present art and handmade objects by emerging as well as established artists and makers from the east of England in non-gallery spaces celebrating our rural surroundings. We work with those who include the natural world in their subject matter or production process. They bring about a closer understanding of the countryside, what makes the east of England landscape so unique. Looking creatively beyond the passing trend they encourage greater consideration for nature, as its appreciation and preservation becomes ever more prescient to our time.
